FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

There has long existed a public demand for ar efficative purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success a accomplishes the purpose designed. It is easy to make the purpose designed. It is easy to make a paysical politon not easy to make the best of all pass—one which athough have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that atmost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor, and Loss of Appetite, Listlessness, Irritability, Billions Headache, Billious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Souvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful enters in R

Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and this pill is found to answer a better purpose than any thing which has hitherto been available to mankind. Where their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartie medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see wrapper on the Box. PREPARED BY

CONSUMPTION.

This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affection of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOALISENESS, &c., and for CHILDRIN, it is the pleasantest and safest medicine that can be obtained.

can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

THE INTELLIGENCER.

FRIDAY MORNING, MAY 28, 1858.

ITINEBANT MUSICIANS .- Appro, os of the movenent in New York, against the crying of newspapers on Sunday, it is worthy of mention that a bill was recently introduced into the British: House of Lords, the purpose of which was to bate the nuisance of the London street musicians, who know so well the " 'ly of peace and quietness," and profit by the knowledge at the expense of the nation's bleeding ears. Lord Lyndhurst opposed the bill in a humorous speech and the bill was rejected by the Lords. The Times and Punch have entered into a crusade against these peripatetic minstrels, and this is the proclamation of the former:

"The early dawn is ushered in by cries which break into the drowsy dreamer's rest; but sup-pose him fairly out of bed and preparing to par-take of his morning meal. From this time to nearly noon he will never once enjoy the luxury of quiet. Old clothesmen trot past with their monotonens cry. Costermongers, venders of Bath brick, of 'any ornaments for your firestoves,' of birdenges, flowers, and various other articles of street marketing, keep and continual tomult until past midday.— But long before this hour the musicians have invaded the neighborhood. You have have just been delivered from the stento-rian lungs of a gentleman who sells plaice and flounders from an open cart, and sit down to write a letter, or perhaps to do something requiring more fixed attention, when the best of a drum and the well-known squeak of a pan pipe announces that Punch is come into the street. For twenty minutes his performances continue to the great delight of a circle which has fol lowed the show from distant parts, and when all your patience is exhausted he suddenly moves off to some other unhappy neighborhood But it is uscless to think of a respite. The echoes of the last tattee on the drum have scarcely vanished, when a loud chuckle in imitation of the negro race is heard, accompanied by the rattle of the 'bones,' and straightway half a dozen savages, with blackened faces, begin an Ethiopian entertainment, which is enough to drive to distriction any one of ordinary irrimodifity. But why endeavor to describe what everyone has listened to? Barrel-organs, hurdygardies, apocryphal Highlanders with the most discordant of begpipes, Punches, negro melo-dists, vocal performers of popular songs, infest the side streets of this metropolis, and banish peace from the souls of the inhabitants."

A man rails and exclaims at a woman who no longer cares for him, and quickly forgets the ess. A woman is not so outrageous at being forsaken, but the regret lasts a long time.

An aloe planted near a withering fruit tree cau-es it to revive. How would it do to plant a withering old bachelor by the side of a good looking wife? Guess it would rejuvenate him upon the same principle.

WHEELER & WILSON'S Medal amily Sewing Machine.

THE UNANIMOUS FAVOR WHICH HAS ATTENDED the introduction of WHEELER & WILSON'S FAMILIA SEWING MACHINE, is sufficient evidence of its excellence. It is needless now to say that this useful instrument is becoming a domestic fastitution, the fact is recognized by its successful use in the mails of families the every rank in life. To those who have hitherto refrained from availing themselves of its advantages, it may not be suits to say that the utility is not a problem to be solved, but a success already realized. The highest testimony is constantly offered, concerning this verdict, which has given this instrument so wide and enviable a reputation.

Those Machines are exhibited and sold by JAMES EWING, Agent,
